**Features**

**Weighing for a Wide Variety of Applications**

The HV/HW-C/CP scale family is designed to integrate easily into your weighing process. It offers a broad range of solutions for your checkweighing, parts counting or quality assurance applications. Raise your throughput, increase process security and improve your product and delivered quality

**Secure Compliance** Feel secure in your weighing process with built-in key lock function to prevent any unwanted changes and seamless data capture with available built-in printer. You can meet NTEP and Measurement Canada requirements with the HV-C and HV-CP models

**Increased Throughput** Speed up your weighing process with 1-second stabilization and a wide selection of accessories and connectivity options. Control the scale, change settings and output data via USB or RS-232C. Comparator lights reduce operator fatigue and errors.

**Improved Ergonomics** Large backlit terminal is visible even in dimly lit areas. Avoid neck and back strain with adjustable terminal head or with optional remote display and wall-mount bracket. Rollers make weighing heavy or large containers in production lines smoother and quicker.

**Reliable Counting & Portioning** Fast and efficient portioning and filling with Auto-Tare, which automatically tares the scale when the weight reaches a pre-set range. Combined with our Negative Checkweighing feature, you can now easily move parts from a master carton on the scale to containers on a production line.

**Robust & Dependable** IP65 rated base along with stainless steel weigh pan (SUS430) allow for wet weighing and is easy to keep clean and hygienic. All HV/W-C models can be easily moved and placed to best fit your process. They operate anywhere off of four standard D batteries.

	HV-C	HV-CP	HW-C	HW-CP
<b>High-Speed Measurement</b>	1 Second	1 Second	1.5 Second	1.5 Second
<b>Built-in Printer</b>	-	YES	-	YES

<b>Display</b>	7 segment LCD (Character height: 25 mm) with backlight; 3-color, 5-step LED comparator lights					
<b>Display update</b>	10 times / second					
<b>Operating temperature</b>	-10 °C to 40 °C / 14 °F to 104 °F, 85% R.H. or less (no condensation)					
<b>Power</b>	HV/W-C series: AC adapter or four D batteries (approx. 1200 hours using alkaline batteries, with display backlight and LED comparator lights OFF) HV/W-CP series: AC adapter
