

Adam Equipment AELP-3000-AE403 Pallet Beam Scale with AE403 indicator 6600 x 2 lb

The AELP series of pallet beams are ideal for pallet weighing and oversized weighing applications. The Adam AELP is easy-to-use and move, with built in wheels and handles for mobility. The AELP comes standard with the AE403 indicator that features a bright green LCD display that can be read in difficult lighting conditions. The AELP offers fast, precise mobile weighing along with many other features.

Features

The AELP series of pallet beams are ideal for pallet weighing and oversized weighing applications. The Adam AELP is easy-to-use and move, with built in wheels and handles for mobility. The AELP comes standard with the AE403 indicator that features a bright green LCD display that can be read in difficult lighting conditions. The AELP offers fast, precise mobile weighing along with many other features.

With over 35 years of experience in the production of weighing instruments you can trust Adam for quality products that offer a range of features designed for a variety of applications.

AELP pallet beams feature a low profile design for easy loading and unloading. The Adam AELP is easy-to-use and move, with built in wheels and handles for mobility

The AELP offers fast, precise mobile weighing along with many other features.

Features

- Portable, with built-in wheels and handles
- Low-profile beams simplify loading, weighing and unloading
- 15-foot/5-meter shielded cable allows flexible positioning of the indicator and beams
- Four precision OIML-approved load cells for accuracy and consistent measurements
- Heavy-duty feet offer support for large loads, ensuring stability during weighing, loading and unloading

AELP pallet beams offer fast, precise mobile weighing up to 2000kg for industrial and commercial environments. The beams can be extended and retracted depending on the size of the object and are supplied with built-in wheels and handles, making them easy to move around.

Enclosed channels with high-quality load cells provide accurate, repeatable measurements and are built to withstand the rigors of constant warehouse use. Use the AELP with the included AE403 indicator for the desired range of features. AELP beams are equipped with approximately five meters of shielded cable.

AELP pallet beams make ideal cattle scales that can be easily combined with weighing platforms, cattle crushes or cages by mounting these on top of the beams for effective livestock weighing.
