

Chatillon utility push-pull gauges are designed for economy applications. Gauges feature a lightweight, polystyrene construction. The high contrast face is non-glare with easy-to-read graduations and markings. These instruments may be operated at any angle and tare and zero is easily performed. Instruments have dual graduations in avoirdupois and metric readings. Accuracy is better than 1 graduation.

Features

Chatillon push pull gauge is a compact, finely-built gauge whose slender shape permits use in the narrowest of spaces. Capacity x graduation: 72 oz x 1 oz/ 2025 g x 25 g

A compact, finely-built gauge whose slender shape permits use in the narrowest of spaces. Extended scale length, additional graduations, sensitivity and lighter capacities recommend its use in laboratories and other demanding applications.

- Sturdy, Lightweight Plastic Construction
- Avoirdupois and Metric Graduations
- Easily Adjusted for Tare and Zero
- Better than 1 Graduation Accuracy
