Features

The 210 weight indicator is loaded with features, including a stainless steel washdown enclosure, easy-to-read 0.6-in/15-mm high bright-red LED that displays weight to six digits, digital fill control, 25 single IDs, push-button Gross, Tare, Net conversion, flexible print formats, selectable weight units, alphanumeric keypad, tare, checkweighing, time and date, livestock weighing functions, and eight preset weight comparators (PWCs). Four bi-directional RS232 serial ports provide easy connectivity to remote displays, label or ticket printers, or PCs. The 210 offers USB-B standard and USB-A optional connectivity. Rugged versatility makes the 210 ideal for weighing applications ranging from bench scales to truck scales. Supports up to 8 350-ohm load cells. NTEP, OIML, Measurement Canada, Australian NSC, ETL, and CE.

- 4 RS232 Serial Ports
- 8-Channel Digital Inputs and Outputs
- Alphanumeric Keypad
- Digital Fill Control
- IP67 Enclosure Rating
- Livestock Weighing Features
- Made in USA Quality
- NTEP Legal for Trade
- OIML Certified
- Powers up to 8 Load Cells

- Stainless Steel Enclosure
- USB-B Standard - USB-A Optional

Loaded with Time-Tested Features
Cardinal's USA-made model 205 and 210 STORM indicators are ideal for a wide variety of weighing applications ranging from bench and floor scales to the most sophisticated vehicle scale. The four serial ports and wireless capability with SnapStream ease interfacing with remote displays, printers and PC's.

Livestock Weighing
Whether you're weighing a single animal or an entire herd, the 210 indicator makes it simple. Cardinal's StableSENSE® digital filter minimizes the effects of moving livestock while the 210 can provide time, date, ID, consecutive number, gross weight, head count and average head weight for recording.

Complete Ticket Configurability
Convenient print tab settings with X-Y coordinates make it easy to set up a ticket with the information you need to print for any ASCII printer. With Cardinal's powerful nControl software you can create additional custom print formats for truck tickets, weight receipts, and even bar-coded labels to your specifications.

Digital Fill Control
Cardinal's model 210 STORM indicator supports single and dual-speed digital fill control operation and allows a variety of discharge gate configurations. The 210 includes up to 25 stored preset / accumulators and remote inputs for Zero, Tare, Gross, Units, Start, Stop and Print.

205 and 210 Standard Features

- Push-button Tare
- Gross, Tare, Net display
- Selectable key lockout
- Hi-Resolution mode
- StableSENSE® adjustable filtering
- Gross and Net accumulators
- Four serial ports
- USB interface
- Programmable print format using Visual Print or nControl (2 Visual Tickets available)
- SMA level 2 compliant serial communications (For more information see scalemanufacturers.org)
- Field re-programmable via PC connection
- Test feature (performs display and internal tests)
- Auto Shutoff and Sleep modes

210 Exclusive Features

- Alphanumeric keypad
- Keypad Tare
- Count feature with accumulator
- Time and Date with selectable 12 or 24 hour format
- Checkweigher
- Eight (8) preset weight comparators
- Axle weigher (CWL-40) operation mode
- Animal weigher
- ID storage
- 2-Speed fill control
- Eight (8) remote inputs for Zero, Tare, Gross, Units, Start, Stop and Print (1,000 feet maximum)

Optional Features

- Analog output
- PLC interface (Remote I/O, EIP, Modbus TCP)
- 10/100 mbps Ethernet TCP/IP adapter
- Additional serial port
- Internal relay box
- External relay box
- Column mounting
- Checkweigher light bar

Wireless Options

When equipped with Cardinal Scale's proprietary SnapStream Wireless Interface, the 205 and 210 indicators can send weight data wirelessly to a host of peripheral equipment including printers, remote displays, PCs and networks. SnapStream is a fully integrated NTEP legal-for-trade wireless scale system for use in both commercial and non-commercial applications.

Custom Applications

Need a special application? the Cardinal's in-house software team is ready to write special software for both the 205 and 210 to meet your unique requirements. Note that the memory capacity of the 210 has been doubled from the previous version to support your most complex application. Please give us a call at 1-800 832-0055 or e-mail to discuss custom applications
