## Features

The 6854DHR USA-made bariatric scales are designed for optimum performance and display weight, height, and BMI simultaneously (shown below) by simply raising the digital height rod while a patient is being weighed on the scale. There are no keys to push, no operational sequences to memorize, it's fully automatic. These bariatric scales are EMR-ready with USB, serial, and optional Wi-Fi. The ability to print or save weight data with these scales is a real time-saving device for clinics, doctor's offices, long-term care facilities, and other medical institutions.

Detectos state-of-the-art MedVue® digital weight indicator includes DB9 serial, USB, and optional wired or Wi-Fi Ethernet output for data transfer to a printer or PC-based EMR (electronic medical record) software. With the time/date feature, the scale can send the weight, time, date, BMI (Body Mass Index), and height directly to a printer or a PC for record keeping. The 350-degree swivel mounting bracket allows it to be positioned wherever its easiest for viewing.

Digital measurement speed and accuracy  
Stainless steel handrails for assurance  
Integral wheels for quick and easy transport  
Height rod measures up to 67" / 200 cm  
Includes NEW Detecto MV1 indicator (click [here](#) for specs)
