Features

The built-in rechargeable battery pack with up to 200 hours of continuous use not only monitors the battery life, but also recharges the battery while the scale is in operation insuring no unexpected "down time."

Preset count and weight limits can be set to alert the operator that a quantity or desired weight has been achieved. This is an excellent feature for packaging of parts and products.

With 15,000 weight divisions, the CS series is capable of counting the smallest of parts. The CS series includes memory accumulators to keep total piece count and weight from the last time the memory was cleared. This feature is great for keeping a running total on specific parts and products.

The CS scale packaging can be re-used when storing or transferring the scale. A vinyl dust and debris cover protects the CS scale from all of the dirt that can accumulate over long term use.

CS Series Specifications

| | | |
|-------------------------------|-------------|-----------------------------------|
| Models and Capacities: | CS-6 | 6 lb x .0005 lb (3 kg x 0.2 g) |
|-------------------------------|-------------|-----------------------------------|

| | | |
|-------------------------------|---|-------------------------------------|
| | CS-15 | 15 lb x .001 lb (7.5 kg x 0.5 g) |
| | CS-30 | 30 lb x .002 lb (15 kg x 1 g) |
| | CS-65 | 65 lb x .005 lb (30 kg x 2 g) |
| Display: | 0.75" high LCD with backlight | |
| Power Source: | Rechargeable battery pack or 115 VAC 50/60Hz or 230 VAC 50/60Hz | |
| Overall Dimensions: | 11.75" W x 12.63" D x 4.25" H (30 cm W x 32 cm D x 11 cm H) | |
| Platform Size : | 11.38" W x 8.25" D (29 cm x 21 cm) | |
| Tare: | 100% of full scale capacity | |
| Operating Temperature: | 32 - 104°F (0° - 40°C) | |
| Shipping Weight: | 13 lb (6 kg) | |
