

DETECTO's DR660 portable scale provides mobile bariatric weighing making it ideal for visiting home healthcare nurses. The 21.5-in/56-cm wide platform accommodates broad stances inherent in bariatric patients. The DR660's weighing platform is only 2-in/5-cm high, requiring only a minimal step and features a non-skid rubber mat for patient assurance and safety.

## Features

DETECTO's DR660 portable scale provides mobile bariatric weighing making it ideal for visiting home healthcare nurses. The 21.5-in/56-cm wide platform accommodates broad stances inherent in bariatric patients. The DR660's weighing platform is only 2-in/5-cm high, requiring only a minimal step and features a non-skid rubber mat for patient assurance and safety.

Detecto's DR660 features 660-lb/300-kg capacity, 1-in/25-mm high bold LCD readouts, RS232 serial port for EMR/EHR connectivity, carrying handle, and rechargeable built-in battery power. The HOLD key retains weight on the display after a patient has stepped off the scale allowing patient attendance first before recording measurements.

## Specifications
