### Features

Designed for portability and accuracy, the Model DS4100 is the perfect choice for a traveling nurse or a pediatric office. Backed up by a three year warranty, the scale features a one-piece design that is sturdy and lightweight.

With accuracy only found in more expensive scales, your medical staff will now be able to track even the smallest weight changes with ease.

The patients weight is quickly "locked-on" and the weight is displayed in the large LCD read-out.

A beep signals that the weight has been "locked-on" allowing attention be focused on the patient, rather than the weight display. The weight remains on the display until the Zero button is pressed or the scale is turned off.

The Reweigh button, a feature unique to the Doran DS4100, zeroes the scale and reweighs the infant without removing the baby from the scale.

| Model                  | DS4100                        |

AC adapter for Doran DS4100 AND DS4200  
230v CE Approved

## Doran DS4900 Neonatal/Infant Scale Cart for DS5040 DS4100 and DS4300

Constructed of heavy gauge painted steel, the scale cart provides a convenient and safe way to move the neonatal or infant scale around a busy medical office or hospital pediatric ward.

The base of the cart features high impact plastic bumpers and a low center of gravity to prevent the cart from tipping over. Moving the scale is easy thanks to the 5" diameter wheels and ergonomic push handles. Two of the easy roll casters lock to ensure that the scale cart stays in place while the scale is being used.

The roomy shelves has plenty of space for medical supplies and the 3" deep drawer locks for security.

- CONSTRUCTION: ABS plastic and painted steel
- DIMENSIONS Cart: 29" W x 24.5" D x 37.5" H
- Top Tray Dimension: 25.75" L x 16.75" W x 0.5" D
- WARRANTY: 5 Five Years
