

## Doran DS8030 Fold-up Wheelchair Scale 800 x 0.2lb

The DS8030 portable digital wheelchair scale offers a large, low-profile base that makes weighing patients fast and easy. The weighing platform is constructed of heavy gauge painted steel and is sheathed with a textured, heavy-duty composite plastic cover that provides an anti-skid surface for maximum safety. The molded surface has no seams to trap dust and debris and is very easy to clean.

### Features

The DS8030 portable digital wheelchair scale offers a large, low-profile base that makes weighing patients fast and easy. The weighing platform is constructed of heavy gauge painted steel and is sheathed with a textured, heavy-duty composite plastic cover that provides an anti-skid surface for maximum safety. The molded surface has no seams to trap dust and debris and is very easy to clean.

Two large diameter wheels are concealed along one side of these wheelchair scales to assist in moving the scales in your facility. With a few twists of the mast locking handles, the DS8030 folds down to a compact size so that it can easily be rolled through doorways. It can also be stored securely in this folded position thanks to the rubber stabilizer feet that are attached to the mast.

The DS8030 is EMR Ready and data can be transmitted via either the included USB or RS-232 ports or the optional WiFi module.

### Specifications

Model	DS8030	DS8030-WiFi
Capacity x Readability	800 lb x 0.2 lb 360 kg x 0.1 kg
