

The Elevate EMRscale™ automatically calculates, displays and transmits height, weight and BMI. These measurements are then instantly loaded into the practitioner's proprietary EMR/EHR system through the industry leading vital signs monitor. There is no manual entry or calculation of height, weight or BMI which is what makes the scale EMR/EHR compliant. It's a fast and simple way to meet the meaningful use criteria as well as improve workflow and ensure accuracy

Manufature: Health O Meter

Features

The Future Called and Wants to Know if You're EMR Compliant.

In 2014, being EMR compliant means having automatic transmission and measurement of weight and height, and calculation of BMI. Those who are not compliant by 2014 will lose federal subsidies and be penalized with diminished Medicare and Medicaid payments.

Health o meter® Professional Scales has the solution. A simple and easy way to become compliant is with Elevate, the Health o meter® EMRscale™.

The Elevate EMRscale™ automatically calculates, displays and transmits height, weight and BMI. These measurements are then instantly loaded into the practitioner's proprietary EMR/EHR system through the industry leading vital signs monitor. There is no manual entry or calculation of height, weight or BMI which is what makes the scale EMR/EHR compliant. It's a fast and simple way to meet the meaningful use criteria as well as improve workflow and ensure accuracy.

● **Additional Features and Benefits of the Elevate EMRscale™**
