Features

The PT300DW scales are designed to maximize legal payloads with concern for violations and reduction of maintenance due to overload stress on equipment.

The PT300DW is a sturdy, all aluminum, fully electronic, self-contained wheel load scale that is capable of weighing loads up to 20,000lbs/10,000kg with an accuracy of +/-1%.

The scales are fully battery operated and only require infrequent recharging through 12V, 110V, or 220V power sources.

The display can be lit for night use and it is possible to sequentially couple and number of PT300DW scales in the series for the purpose of obtaining a total vehicle weight through the total button as well as link the scales to a computer, indicator, or Intercomp's PT20 Universal CPU.

Available in wired and wireless configurations to best meet your needs.

Also can be purchased as system packages with everything you need to start weighing!

Battery charging cable and transformer is included with orders for 2,4, or 6 scales. Specify the appropriate part number when ordering scales.
