Features

Table SAL/STONE/C is designed for ensuring stable operating conditions for high precision measurements. The table top is manufactured from polished granite and it is based on mild steel, metal construction.

- **Anti-Vibration Construction** Granite top on a stainless steel construction enables convenient operation and eliminates ground vibrations that may influence measurement accuracy.
- **Base Temperature** The top ensures stable temperature of the base and the highest accuracy and repeatability of measurements.
- **Working Space** Large surface enables carrying out complicated measuring processes on several devices.
- **Various Applications** The weighing tables are intended for operation in industry and laboratory
