

## Sartorius 790010 Optifit Tip, 0.1-10 µl, single tray (960 ct)

Optifit tips ensure perfect fitting and leak-tight sealing on Sartorius pipettes for maximum pipetting accuracy and reproducibility. The color coding of the tip trays enables you to easily find the matching color-coded Sartorius pipette. Moreover, Optifit tips are manufactured in an ISO 8 certified cleanroom environment.

Manufacture: Sartorius  
SKU: **790010**  
Weight: 1.00 lb

### Features

SafetySpace™ filter tips have more space between the sample and the filter than do conventional filter tips. This virtually eliminates the risk of an expensive or a contagious sample permeating the filter.

SafetySpace™ Filter Tips leave more space between the sample and the filter than conventional filter tips. This allows pipetting any type of liquid or using any pipetting technique without the risk of the precious sample absorbing into the filter. In effect, this secures 100% sample recovery and thus greater accuracy.

The safety space feature is particularly useful in:

- pipetting foaming liquids such as buffers and proteins
- pipetting solvents
- multiple dispensing functions of electronic pipettes
- reverse pipetting
- any other application requiring extra space in the tip

The tips are made of virgin polypropylene and the filter of polyethylene without self-sealing additives to avoid any interference with the sample and the results. The filter barrier helps protect against cross-contamination of the sample and/or the pipette and reduces the need for pipette maintenance. The filter tips are available in multiple volumes from 10 µl to 1200 µl and are packed in colour coded single tray racks. They are DNase, RNase and endotoxin free certified and pre-sterilised.

The filter barrier and the certified purity makes the filter tips ideal for:

- molecular biology
- microbiology
- cell culture applications
- radioactive work

## PROPERTIES

|                      |   |
|----------------------|---|
| Quantity             | 960   |
| Volume               | 0.1 – 10 µL                                       |
| Length               | 31.5 mm   |
| Primary Product Type | Tips  |
| Product Family       | Optifit Tips                                      |
| Tip Type             | Filtered tips                                     |
| Purity               | Non-sterile & free of DNase, RNase and endotoxins |
| Packaging            | Single Tray                                       |
| Dimensions (WxDxH)   | 430 × 135 × 125 mm                                |
