

Sartorius 791211 Pre-Sterilized Extended Length Optifit Tip, 50-1200 µl, single tray (960 ct)

Optifit tips ensure perfect fitting and leak-tight sealing on Sartorius pipettes for maximum pipetting accuracy and reproducibility. The color coding of the tip trays enables you to easily find the matching color-coded Sartorius pipette. Moreover, Optifit tips are manufactured in an ISO 8 certified cleanroom environment.

Manufacture: Sartorius
SKU: **791211**
Weight: 1.00 lb

Features

Optifit tips ensure perfect fitting and leak-tight sealing on Sartorius pipettes for maximum pipetting accuracy and reproducibility. The color coding of the tip trays enables you to easily find the matching color-coded Sartorius pipette. Moreover, Optifit tips are manufactured in an ISO 8 certified cleanroom environment.

The non-filtered Optifit Tips are designed for best possible fitting and sealing to secure the highest possible accuracy and precision. These pipette tips enable ergonomic and light tip attachment by being compatible with the Optiload feature in Sartorius Picus® NxT, Picus®, eLINE®, mLINE® and Proline® Plus pipettes.

Optifit Tips are available in various packaging types for all your needs:

- Single Tray racks – purity certified tip racks
- Refill Packs - purity certified and ecological refill packages
- Refill Towers - space-saving and ecological refill packages
- Flexibulk boxes - space-saving, ecological and economical bulk boxes
- Standard bulk – economical bulk boxes

While Optifit Tip trays are colour coded for easy matching with a corresponding, colour coded Sartorius pipette, they do also match with most other pipette due to their universal design.

Strict quality standards, ISO 9001 and ISO 13485, are followed from tip R&D to production and delivery. The purity certified tips are manufactured in ISO 8 classified clean room conditions to avoid any contaminations and are tested for DNase, RNase and endotoxins per each tip lot. Pre-sterilised tips are also available for the purest laboratory work.

- Ergonomic and light tip attachment and ejection secured by tip compatibility with the Optiload feature of Sartorius pipettes
- Environment friendly materials used in tips, trays and racks are 100% recyclable or can be incinerated as energy waste
- Less waste by reusing the fully autoclavable (121 °C, 20 min) tip racks with refill or bulk tips

PROPERTIES

Quantity	960
Volume	50 – 1,200 µL
Length	90 mm
Primary Product Type	Tips
Product Family	Optifit Tips
Tip Type	Non-filtered tips
Purity	Pre-sterilized & free of DNase, RNase and endotoxins
Packaging	Single Tray
Dimensions (WxDxH)	500 × 167 × 167 mm
