## Features

Sartorius YDP30 thermal transfer printer works with Practum, Quintix, Secura, MA37 and MA160 balances. When you plug the Sartorius YDP30 printer in one of these balances the Sartorius balance automatically detects the YDP30 printer allowing you to generate printouts of the results on standard printer paper or on continuous labels.

The Practum, Quintix, Secura, MA37 or MA160 balance will guide you through the steps for obtaining GLP-compliant printouts. The novel GLP user guidance features will support you, especially for working with traceable sample identification.
