

The seca 777 digital column scale with eye-level display is the medical-grade solution for measuring and weighing. It features a tilt-proof full metal platform and robust single piece column, that won't give way when pushing the keypad. All patients (especially ones affected by obesity) will feel secure on the platform even when stepping on the edge of the base. The scale is easy to move by staff due to the large rubber coated castors and a wide wheelbase.

Cost-effective without any compromises in quality The seca 777 puts unstable and inaccurate weighing and measuring to an end. It boasts a tilt-proof full metal platform and a stable single piece column. The eye level display and ultra sturdy base provide comfort and security. It is a quality every patient will notice, as soon he sets foot on the platform. The scale is easy to move by staff due to the large rubber coated castors and a wide wheelbase

Absolute sturdy construction The platform gives patients (especially those affected by obesity) a greater sense of security when stepping on it. The measuring rod is firmly attached to the column and provides a measuring range that is suitable for pediatrics and for very tall individuals. In addition, there is enough space between the platform and column so that patients can be weighed comfortably.

Quality you can trust As the world market leader in medical measuring and weighing, we put all our experience and knowledge in the development and design of the seca 777. This includes extensive and stringent endurance tests that simulate more than ten years of daily usage. We made sure, that even after thousands of height and weight measurements and thousands of button presses, the seca 777 will work smooth and reliable as it did on the first day.
