Features

The WB-800P plus scale is perfect for those instances where absolute measurement of weight gain or loss is a necessity. This incredibly durable, yet portable, professional grade scale is perfect for any busy practice, gym or clinic. The scale features an extended capacity of 660lb (300kg) along with an oversized low-profile platform, with instant-on activation of digital weight and BMI to accommodate a wide range of clients and patients.

A column mounted display with an extra-large LCD display is positioned 45" off the floor for easing viewing, and can be rotated 90 degrees for viewing in any situation. Castors on the base of the WB-800P plus platform make moving it from room to room effortless.

Separate display and movable platform makes the WB800S plus perfect for those patients requiring a little more room, such as pregnant moms and larger patients. The display can be placed on a tabletop using an innovative retractable stand, or hung on a wall with the supplied hardware. An extra-large LCD display makes viewing of results an easy task.

EMR ready with both an RS-232 and USB output. When used with Tanita HealthWare Software (sold separately) data from the WB-800S plus can be stored on PC to provide custom recording, tracking, and analysis for an unlimited number of users.
