Features

The TORREY FS receiving bench scale was designed for busy environments where accuracy, reliability and strong built products are needed. The backlit, alphanumeric LCD screen is adjustable to clearly show the weight of portioned items, even in dark areas.

The FS model is available on 500 and 1,000 lbs. capacities. It can also toggle between kilograms and pounds with its precise readout to deliver the versatility and pinpoint accuracy you need to ensure that your shipments both disperse and come in at the expected weight.

High-paced shipping docks require equipment that is mobile and adaptable. The FS model comes equipped with a 100 Hour Rechargeable Battery and back wheels to ensure that you can take it anywhere without running out of power. The FS receiving bench scale model also comes with a tare function that allows for product packaged for bulk transport to be weighted individually.

STEEL CONSTRUCTION

The TORREY receiving bench scale steel construction ensures the best performance on high pace environments. This bench scale was design to withhold the high demands of busy shipping docks, outdoor markets and other bulk sales areas

HEAVY DUTY BACK WHEELS

We understand that high pace environments require equipment that can be taken where needed. The FS model comes equipped with heavy duty back wheels to provide effortless mobility where required.

POUNDS/KILOGRAMS CONVERSION

Switching from pounds to kilograms is easy; with the simple push of a button you can get an accurate and immediate weight conversion

RECHARGEABLE BATTERY

The FS Model is equipped with a 100 Hour rechargeable battery that allows you to transport the scales anywhere without running out of power. Afterwards, simply plug in the included AC Adaptor and the battery will be recharge itself.

LCD DISPLAY AND BACKLIGHT

The backlit, alphanumeric LCD screen is adjustable to clearly show the weight of portioned items, even in dark areas

LARGE SOLID PLATFORM

The 19"x 21" platform provides a robust base to easily place any kind of materials, containers or trays. It also allows you to individually weigh products as they are packaged for bulk transportation.
