Features

PC-40LT Price Computing Scale (with Turret)

An unbeatable package for the independent retailer, the PC Series scales from TOR REY offer everything you want in a retail price computing scale. With the perfect combination of a compact footprint and large weighing surface, the PC Series scales are designed to meet the needs of your business.

The PC Series Price Computing scale is a great tool for the sale of commodities in a variety of stores (including supermarkets, delis, grocery stores, carnercerias, convenience stores and more). Portable and sturdy, our scale features an AC adapter and built-in rechargeable battery with an auto

power-off function to save power. A turret-mounted display offers clear visibility for your customer and provides an easy way for the user to manage price memory listings. 15 direct access keys allow you to recall the unit price with one touch and added functionality to retrieve pricing on up to 100 additional items. The PC-40LT offers a 40 lb (precise to .01 lbs) capacity, giving it the precision you need to help maximize your profits. A pre-pack function speeds up same product packing operations and the user friendly keypad and easy-to-read backlit display eliminate calculation errors and contributes to a positive customer service experience.

With an easy-to-clean stainless steel cabinet and detachable plate, the PC Series also features a built-in serial port for easy PC/printer communication. Attractively designed and touch enough for every day professional use, the PC Series will meet virtually every weighing need on almost any counter.

Whether youre selling apples at a produce stand, pricing ground beef in a butcher shop, or weighing cheese in a dairy, the PC Series Price Computing scales will provide the reliability you demand. So if you need a dependable and functional scale at a very affordable price, choose the PC Series from TOR REY.
