## Features

The PLP Series features platform/floor scales with quick connects and factory calibration allowing easy setup and “out of the box” functionality. Ideal for factories, warehouses, printing houses, workshops, foundries and more!

The PLP Series floor scales offer solid construction with a steel channel-frame design providing strength and protection to the load cell, cable and junction box. Our scales feature 5,000 division load cells and 4 adjustable legs to give more stability with every weighing application. The PLP Series is available in several capacities and includes the WI Indicator.

The PLP Series scales feature rugged construction and are designed for heavy duty jobs. TOR REY floor scales don't need any additional accessories to be installed – you'll receive the platform ready to operate – just plug in the 25 foot heavy duty cable to the indicator and you're ready to go.

The PLP Series scales will meet the platform weighing needs of your business.

- Junction box located on side of scale for easy access...25 ft. heavy gauge cable...Sturdy packaging to ensure maximum scale protection when shipping

- Optional ramps + pit frames available... Rugged design + quality construction ensures long life... Shock absorbing platform protects against overloads...
- Steel channel-frame design provides strength and protection to the load cells, cable and junction box.
