Features

Connectivity solution allows capture and viewing of DETECTO's 1LOOK weight, height and BMI measurements and automated data transfer to EMRs.

Welch Allyn, a leading global provider of medical diagnostic equipment, has partnered with DETECTO, America's largest healthcare scale manufacturer, to enable automated interface between the Welch Allyn Connex® Vital Signs Monitor (Connex VSM), the Welch Allyn Connex® Integrated Wall System (Connex IWS) and select DETECTO medical scales.

Connectivity-ready DETECTO medical scales included under the agreement include eye-level and waist-high electronic column scales for physician and hospital settings, bariatric, wheelchair and visiting nurse scales (listed below) — designed to accommodate every kind of patient need quickly and accurately. These scales operate digitally and are equipped with BMI, easy-to-read display, and auto-off features, plus several models feature digital height rods to speed the measurement process. These scales feature DETECTO's unique 1LOOK feature which displays height, weight, and BMI all onscreen simultaneously to be viewed in one scan of the eye for efficient patient recordkeeping.

WACONNECT Includes:

- Detecto Welch Allyn Interface License
- Cable USB A Male to USB B Male
- Box and Packaging
