Features

The Mark10 ES10 and ES20 manual test stands are compact and economical solutions for compression and tensile testing of small samples. Choose between a lever (ES10) for quick-action testing or a hand wheel (ES20) for more precise testing with greater consistency in testing results. An optional dial indicator kit displays up to 1" of displacement. Use these stands with force gauges and grips to create complete and economical testing systems.

Features / Specifications:

- Small size
- Compatible with all Mark-10 force gauges, accessories and grips
- Mounting holes for bench mounting
- Large, removable baseplate with 5 #10-32 UNF holes for fixture mounting

Optional Equipment

- A wide range of force gauges and gripping fixtures
- Dial indicator kit (shown right) - Displays 1 [25.4 mm] of displacement in increments of 0.001

Model	Capacity x resolution	Price
